

# G Suite: a journey of customer focused innovation.

We made G Suite because we want to help businesses work faster, smarter, and more collaboratively. [We're constantly innovating to help teams do their best work.](#) Here's a look back at how the journey started. We can't wait to show you what's next.

**4 million** businesses on G Suite

**1.5 billion** Gmail monthly active users

**1 billion** monthly Google Drive users with over 1 trillion files stored

**80 million** students and educators using G Suite for Education

74% of all time spent in Docs, Sheets and Slides is collaborative time

Over 300% ROI estimated when moving to G Suite

Zero reported or detected G Suite account hijackings after security key deployments

Businesses can save millions from better licensing and management costs

Organizations have moved over 20k users to G Suite in a single weekend

# G Suite
